Dr. William Trager
Rockefeller Institute
New York 21, N.Y.

Dear Dr. Trager:

Dr. Shozo Inoki has asked me to review the enclosed ms. and advise whether it would be suitable for the Journal of Bacteriology or for another journal. It seems to me that the appropriate place would be the Journal of Protozoology, or possibly the Journal of Biophysical etc. Cytology. I am therefore forwarding his ms. as a primary submission to the J. Protocool. Please deal directly with him on any further editorial correspondence.

Yours sincerely,

Joshua Lederberg
Professor of Genetics

CC: Dr. Inoki
